FOREWORD

The following list of Psychiatric Clinics for Children will enable those interested to determine the available resources in any given locality.¹ Inclusion in this list carries no implication regarding the quality of work done in the clinic, and it is in no sense an "approved" list but is merely a guide to the location of clinics offering psychiatric examinations for children. The list is the result of a thorough search which terminated about April 1, 1928, and does not include any clinics established since that date. The list was prepared by Clara Bassett of the division on community clinics of the National Committee for Mental Hygiene, under the supervision of Dr. George S. Stevenson, director of that division. In addition to the organizations listed here, there are psychiatrists in private practice, a list of whom for any locality can be obtained from the National Committee for Mental Hygiene or the American Psychiatric Association.

¹ See also Directory of Psychiatric Clinics for Children in the United States (second edition, 1928, issued by the Commonwealth Fund, Division of Publications, 578 Madison Avenue, New York, N. Y.), which gives information as to the activities of State departments of mental hygiene as well as descriptions of the clinics listed.

LIST OF PSYCHIATRIC CLINICS FOR CHILDREN IN THE UNITED STATES

ALABAMA

Alabama Association for Mental Hygiene, Myrtle Brooke, Acting Secretary, Alabama College, Montevallo.

CALIFORNIA

California Bureau of Juvenile Research, Whittier State School, Whittier.
